Annual Review of Phytopathology
Volume 35 (1997)

CONTENTS

PIONEER LEADERS

Philip Herries Gregory 1907–1986: Pioneer Aerobiologist, Versatile Mycologist, *John Lacey, Maureen E. Lacey, Bruce D. L. Fitt* 1–14

Frank-Lamson Scribner: Botanist and Pioneer Plant Pathologist in the United States, *James W. Hilty, Paul D. Peterson Jr.* 16–26

Beverley T. Galloway: Visionary Administrator, *Paul D. Peterson Jr., C. Lee Campbell* 29–43

DEVELOPMENT OF CONCEPTS

The Impact of TI Plasmid-Derived Gene Vectors on the Study of the Mechanism of Action of Phytohormones, *R. Walden, B. Reiss, C. Koncz, J. Schell* 45–66

Presentation of Heterologous Peptides on Plant Viruses: Genetics, Structure, and Function, *John E. Johnson, T. Lin, G. Lomonossoff* 67–86

APPRAISAL AND DIAGNOSIS OF PLANT DISEASE

White Pine Blister Rust Control in North America: A Case History, *Otis C. Maloy* 87–109

PATHOGENS: FUNGI

The Evolutionary Biology of *Fusarium oxysporum*, *T. R. Gordon, R. D. Martyn* 111–28

PATHOGENS: BACTERIA

The Role of *hrp* Genes during Plant-Bacterial Interactions, *Peter B. Lindgren* 129–52

PATHOGENS: NEMATODES

The Pinewood Nematode: Regulation and Mitigation, *L. David Dwinell* 153–66

(*continued*)

PATHOGENS: VIRUSES

Barley Yellow Dwarf Viruses, *W. Allen Miller, Lada Rasochová* 167–90
Mechanisms of Plant-Virus Evolution, *Marilyn J. Roossinck* 191–209

HOST PATHOGEN INTERACTIONS

Signal Pathways and Appressorium Morphogenesis, *Ralph A. Dean* 211–34
Systemic Acquired Resistance, *L. Sticher, B. Mauch-Mani and JP Métraux* 235–70
Advances in the Molecular Genetic Analysis of the Flax-Flax Rust Interaction, *Jeff Ellis, Greg Lawrence, Michael Ayliffe, Peter Anderson, Nick Collins, Jean Finnegan, Donna Frost, Joanne Luck, Tony Pryor* 271–91
Structure and Evolution of the *rp1 Complex* Conferring Rust Resistance in Maize, *S. H. Hulbert* 293–310
Anticipatory Breeding for Resistance to Rust Diseases in Wheat, *R. A. McIntosh, G. N. Brown* 311–26

EPIDEMIOLOGY AND ECOLOGY OF PLANT DISEASE

Microbial Population Dynamics on Leaves, *Linda L. Kinkel* 327–47

PLANT DISEASE MANAGEMENT

Rationale and Perspectives on the Development of Fungicides, *S. C. Knight, V. M. Anthony, A. M. Brady, A. J. Greenland, S. P. Heany, D. C. Murray, K. P. Powell, M. A. Schulz, C. Spinks, P. A. Worthington, D. Youle* 349–72
Role of Plant Pathology in Integrated Pest Management, *Barry J. Jacobsen* 373–91

INDEXES

Subject Index 393
Cumulative Index of Contributing Authors, Volumes 26—35 403
Cumulative Index of Chapter Titles, Volumes 26—35 406
